Absolutely. The EUs don't know about this change yet. They are going to get a message from the UAC in a minute.

I can only see the positive in this but I'm not sure how this is going to play out in the regions.

Thanks Dan.

Can we talk about who is going to do what when so we make sure all start know their role and we do it the same way in each region.

All,

Just so you are aware there is going to be a change in the data flow from regions to UAC.
The new flow is:

- [REDACTED] all validated data is going to stay in the region until it has been reviewed by the EUC and has a messaging attached to the data.
- [REDACTED] Once completed they will send it to the HQ Enviro Unit/ Terry Smith, HQ PIO and the UAC Enviro Unit for review.
- [REDACTED] From there the HQ PIO will work with the regional PIO on to approve messaging.
- [REDACTED] Once completed it will be published.

The current flow UAC receives the data from Janine and we cut out older data and send it back to the regional EUC for messaging and interpretations if there is issues. They send the data back to UAC EUL and they send it to Terry Smith- he reviews the data, sends comments back to UAC EUL – if yes UAC EUL reaches out to the regions, if no UAC EUL sends the data along with the messaging from the regional EUC to HQ EOC Enviro Unit and HQ PIOs.

Sorry for drag out but I wanted you guys to be aware of the change.
